- Using your project board from the last Practicum
- Consider Google's main search page.
 - Identify 2 or 3 Use Cases
 - Work through each Use Case and flesh out the basic and at least two alternate flows each
 - Next estimate the time it would take to complete the each use case in its entirety (using ideal days)
 - Next explore how you might slice each use case
 - Write up each use case and use case slice as a card in the project board
 - Include your estimates for both the main use case
 - Include your estimates for each slice
 - Additionally include a priority level for each item created.
