This person was incredibly involved

David Hellwig:

Grade: A

Percent: 20%

This person was incredibly involved

Ekow Barlow:

Grade: A

Percent: 20%

This person was incredibly involved

Michael Collier:

Grade: A

Percent: 20%

This person was incredibly involved

Use of Scrum and Essence:

We frequently have scrums after class and on the weekend. This makes it a lot easier to know who is doing what and how we can help each other in the future.

We have consistent stand-up meetings 2 times a week and smaller meetings to talk about more particular parts of the project. We occasionally do some pair programming as well to step through more complex parts of the system.
