

1. Coby G. - I was assigned to set up a docker container and get it running on aws. I got a docker container set up but didn't get it working with aws. I did a third of the work in the team

Grade: A, I completed my work but was not otherwise involved

2.
  - a. Sushan - Grade A, did a third of the work. He completed all of his work but was not otherwise involved
  - b. Grant- Grade A, did a third of the work. He completed all of his work but was not otherwise involved
3. We utilized scrum by holding scrum meetings 2-3 times a week, and used essence to break down our project into work products and activities to progress the project
