Sprint 03 Team Review

Self-Evaluation:

Show Pratoomratana

During this sprint, I was the Product Owner and lead for JavaFX UI.

Grade: A

Percent: 22.5%

I did complete my tasks for this sprint

I was incredibly involved.

Team Member Evaluation:

Alex Diviney:

Grade: A

Percent: 22.5%

This person was incredibly involved

David Hellwig:

Grade: A

Percent: 22.5%

This person was incredibly involved

Ekow Barlow:

Grade: B-

Percent: 10%

This person completed most of the work assigned but other group members contributed more. Ekow can be difficult to contact and rarely attends class and group meetings. When he does join meetings he doesn't say much unless directly prompted, he has made some minor contributions to the project but I feel the rest of our group has done significantly more. I don't want to be too harsh because I know Ekow is extremely busy with personal life and other classes.

Michael Collier:

Grade: A

Percent: 22.5%

This person was incredibly involved

Use of Scrum and Essence:

We frequently have scrums after class and on the weekend. This makes it a lot easier to know who is doing what and how we can help each other in the future.

We have consistent stand-up meetings 2 times a week and smaller meetings to talk about more particular parts of the project. We occasionally do some pair programming as well to step through more complex parts of the system.
