

CS 3321 Software Engineering Project Peer Evaluation Form

Idaho State University
Informatics and Computer Science Department

Team Member Evaluation

Write the name of each of your group members in a separate column. For each person, including yourself, indicate the extent to which you agree with the statement on the left using a scale of 1–5 where:

1=strongly disagree; 2=disagree; 3=neither agree nor disagree; 4=agree; 5=strongly agree

Note that the higher numbers mean stronger agreement.

Evaluation Criteria	Name:	Name:	Name:
Attended group meetings regularly.			
Arrived on time to meetings.			
Contributed meaningfully to group discussions			
Completed group assignments on time.			
Prepared work in a quality manner.			
Demonstrated a cooperative and supportive attitude.			
Contributed significantly to the success of the project.			

Feedback on team dynamics

1. How effectively did your group work?
2. Were the behaviors of any of your team members particularly valuable or detrimental to the team? Explain.
3. What did you learn about working in a group from this project that you will carry into your next group experience?
