Team Member: Ekow Barlow

Role: Scrum Master

Grade: C

% of work completed: 0%

Participation: This person did not contribute

Defense: Ekow did not contribute this sprint. However I am giving him a lot of slack due to the fact that I spoke with him about why he wasn't and know he had personal issues in his life he was addressing and he did show up to meetings online.

## Scrum and essence

As product owner I tried to get everyone sufficiently energized towards finishing the product. I organized meetings and attended all but two. Ekow was scrum master but I mostly decided when meetings would happen. Our biggest issue was that I was doing most of the two roles. We adopted some Test Driven Development near the end of the sprint to fix some critical issues that arose.
