Part 3 - Team Use of Scrum and Essence

- My team tries to have a scrum meeting every Monday, Wednesday, and Friday from 3:50 to 4 pm in order for each team member can answer the 3 questions in a daily scrum meeting so the scrum master can figure out where we are, what we need to do or if there's anything he needs to do to help. Keeping backlogs also has been one essential part for us with knowing what is worked on and what needs a second look.
- Mainly the issues have been with time and getting the team members to be there for daily scrum meetings.
- We try to keep everyone in the loop through discord try to have set times to meet over discord to solve problems and stay up to date.
