

David Lindeman

CS 3321

Team Feedback

David Lindeman:

Grade: A,

Percentage of work: 25%,

Responsibilities: I've been in charge of writing and researching how to write the library to draw the shapes for the microservice. In this initial phase I contributed by designing the class diagrams and deciding that our approach would utilize the abstract factory method to draw the shapes.

Tasks were completed

Participation: I was incredibly involved

I acted as the liaison between our group members who had less flexible schedules meeting with the group 3 times a week compared to the 2 times required.

Hyunseo:

Grade: A,

Percentage of Work: 20%

Group Participation: This person completed all assigned work but was not otherwise involved

Steven

Grade: B,

Percentage of Work: 10%

Group Participation: This person completed all assigned work but was not otherwise involved

This group member had some life circumstances come up and was able to do what we required of him, however we did not require much from him.

Traae

Grade: A,

Percentage of Work: 25%

Group Participation: This person was incredibly involved

Traae really went above and beyond working with everyone and researching the server information for the project

Tyler:

Grade: A,

Percentage of Work: 20%

Group Participation: This person completed all assigned work but was not otherwise involved
