

Steve Yerka

#### Part 1

I was playing the part of Scrum Master for this portion of the assignment. I was also continuing to research aspects of implementing the load, save and convert functions for the various image files. I am giving myself an A for this section of the project again due to following through with my duties for Scrum and continuing to work on my assigned portion of the file load/save implementation. I completed all my week for this portion, and I was fully involved with the meetings.

#### Part 2

Tyler Kelley

Grade: A

Work Percentage 20%

Incredibly involved

David Lindeman

Grade: A

Work Percentage 20%

Incredibly involved

Hyun Se Seo

Grade: A

Work Percentage 20%

Incredibly involved

Traae Bloxham

Grade: A

Work Percentage 20%

Incredibly involved

### Part 3

We did a much better job of using Scrum during this portion of the exercise. We were able to feel more comfortable and confident in the roles and expectations associated with the process. We still find it easier to do group discussion rather than strict Scrum, so there is work to do there yet. It will continue to be a work in progress.
