

Self-evaluation

- Michael Collier
- Describe your responsibilities in the group: I was in charge of the web ui and connecting it to the database
- Assign yourself the grade: A
- What percentage of the work did you complete? (Total team percentage must add up to 100) : 19%
- Did you complete your tasks? If you did not complete your assigned tasks explain why. I completed each requirement for except for adding drawing for lines between elements in the front end. I had many other commitments this semester and was learning a number of new libraries and methodologies for this project so time simply ran out for me to finish.
- How would you rate your participation in this group? (choose one of the following)
 - I completed my work but was not otherwise involved

Group

- State their name: Alex
 - Assign this person a grade: A
 - What percentage of the work did this person complete? (Total team percentage must add up to 100): 30%
 - How would you rate their participation in the group? (select one of the following)
 - This person was incredibly involved
-
- State their name: Show
 - Assign this person a grade: A
 - What percentage of the work did this person complete? (Total team percentage must add up to 100): 30%
 - How would you rate their participation in the group? (select one of the following)
 - This person was incredibly involved
-
- State their name: David
 - Assign this person a grade: A
 - What percentage of the work did this person complete? (Total team percentage must add up to 100) 19%
 - How would you rate their participation in the group? (select one of the following)
 - This person completed all assigned work but was not otherwise involved

- State their name: Ekow
 - Assign this person a grade: D
 - What percentage of the work did this person complete? (Total team percentage must add up to 100) 2%
 - How would you rate their participation in the group? (select one of the following)
 - This person did not contribute: he basically went awol after the first week
-
- Briefly describe how your team has been utilizing Scrum and the Essence concepts
 - We were very good about the daily scrum meetings and people trying to fulfill the roles assigned to them. However, we were not very good about using Essence, there was extremely minimal use of it.
 - Describe any issues the team is having following these approaches
 - It is difficult to have an entire team adopt a new method of working such a Essence without a person that has used it previously.
 - Describe any methods your team has adopted to improve
 - As we are at the end of the project there aren't any additional things we will be working on in this group.
