Project Presentations

- Each group needs to prepare a project presentation that is similar to one given at a conference.
- Since most of you have never been to a conference, or presented at a conference this will be a foreign concept to you.
- Because of this I have prepared and gathered resources you will need for developing the presentation.
- These presentations are to be limited to between 13 and 15 minutes.
  - They must contain the key findings
  - They must have each group member take part
  - They must be uploaded to youtube by the deadline
- Good Luck...
